Thursday 14th June 2012

WWW.CLUBCONNECT.BIZ

EVENT

- Meet people who speak your language
- Gain business contacts
- Enjoy relaxed good company
- Expand your industry knowledge
- Develop potential future business

ClubConnect Sails Again!

Hello to all the existing ClubConnect members and I am pleased to welcome many new ones!

Andy Campbell

ClubConnect exists as a place where likeminded business people can come along and share their experience and knowledge with others in the same sector.

Primarily we are all connected through Change and Training enterprises. This could be as project managers, change managers, L&D/training managers or trainers.

Software tools and project enablers form a big part of our discussions and we will always be ready to demonstrate Assima's latest tool sets designed to improve business performance. Paul Stevens will be giving his industry update and giving interesting insights into our market place and what's going on.

We can all enhance our knowledge of the marketplace and get feedback on current trends and initiatives both from our industry expert speakers and through sharing our collective experience.

We are very pleased that David Wilson, MD of Elearnity, has agreed to speak for us. He is a respected expert in the Learning and Talent industry and we are very lucky to have him come to share some of the latest industry research and thinking.

Come and join in with some very interesting people for an informal social network gathering. Come and

join us at the: HMS President, Victoria Embankment.

Join us from 6:30pm where there will be a welcome drink and hot bowl food. A Short presentation from Paul Stevens will be followed by our guest speaker.

The bar will remain open through-

out the evening and there will be a sweet things and coffee before we close at 11:30pm. Only a short walk from Temple underground station.

Please RSVP

Guest speaker: David Wilson

Title: Learning & Talent - Research and Trends

David Wilson is founder and Managing Director of Elearnity, Europe's leading independent learning and talent analyst. A major commentator on the learning and talent technology industry since its inception, David is a strategic advisor to many major corporate and supplier organisations.

David personally leads Elearnity's Talent research and corporate advisory agenda. He is the author of over 140 research papers and articles on learning and talent technolo-

gy and innovation, as well as being a

leading speaker at major conferences in the UK and Europe.

With his extensive market knowledge and detailed insight of corporate projects and experiences, David continues to influence the thinking of many of the companies and vendors operating in the market today.
